

How to Join a Google Meet Live Class on a Computer

1. Your teacher will send you a link to join the meeting. Type the link in your Google Chrome browser.

Click this link to join the live meeting:

meet.google.com/mug-fyop-qjb

Sent ✓

2. After you put the link in the browser, you will see a screen like the one below. You can mute your microphone and turn off your video before you join the meeting. Click “Join now” when you are ready to join.

The screenshot shows the Google Meet join interface in a browser. The address bar contains the link meet.google.com/mug-fyop-qjb. The page title is "Google Meet" and the user is logged in as rwatkins0057@gmail.com. The main content area displays "Camera is off" above a video feed placeholder. Below the video feed are two red circular buttons: a microphone icon with a slash (muted) and a video camera icon with a slash (video off). Below these buttons is the text "Ready to join?" and a small profile icon for "Rebecca Watkins is in this call". At the bottom are two buttons: a green "Join now" button and a white "Present" button with a plus icon.

1. Type in the join link from your teacher here

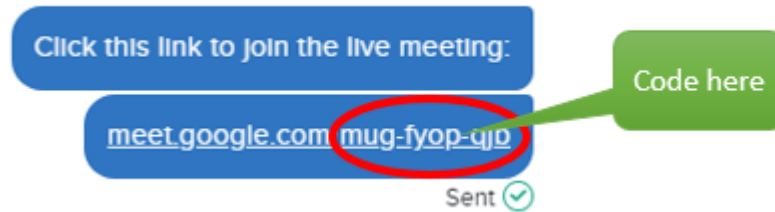

2. Mute yourself here

3. Turn off your video here

4. Click here to start the meeting

Another Way to Join a Google Meet Live Class on a Computer

1. Your teacher will send you a link to join. Copy the code from the link.

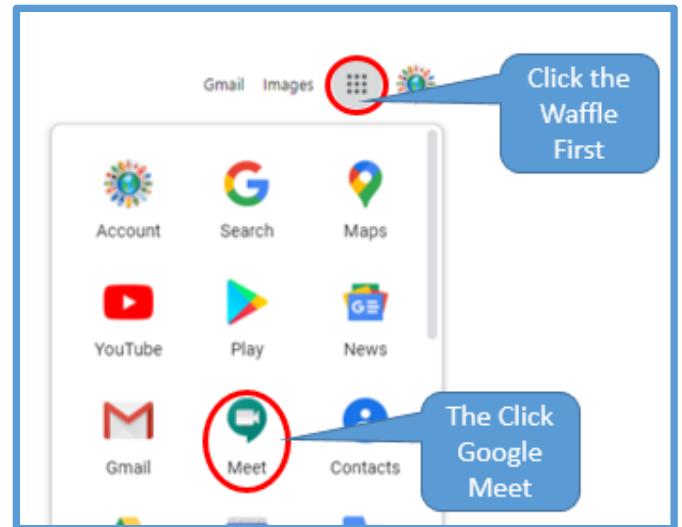

2. Then go to Google Meet:

First click on the waffle  in your Google Chrome Browser.

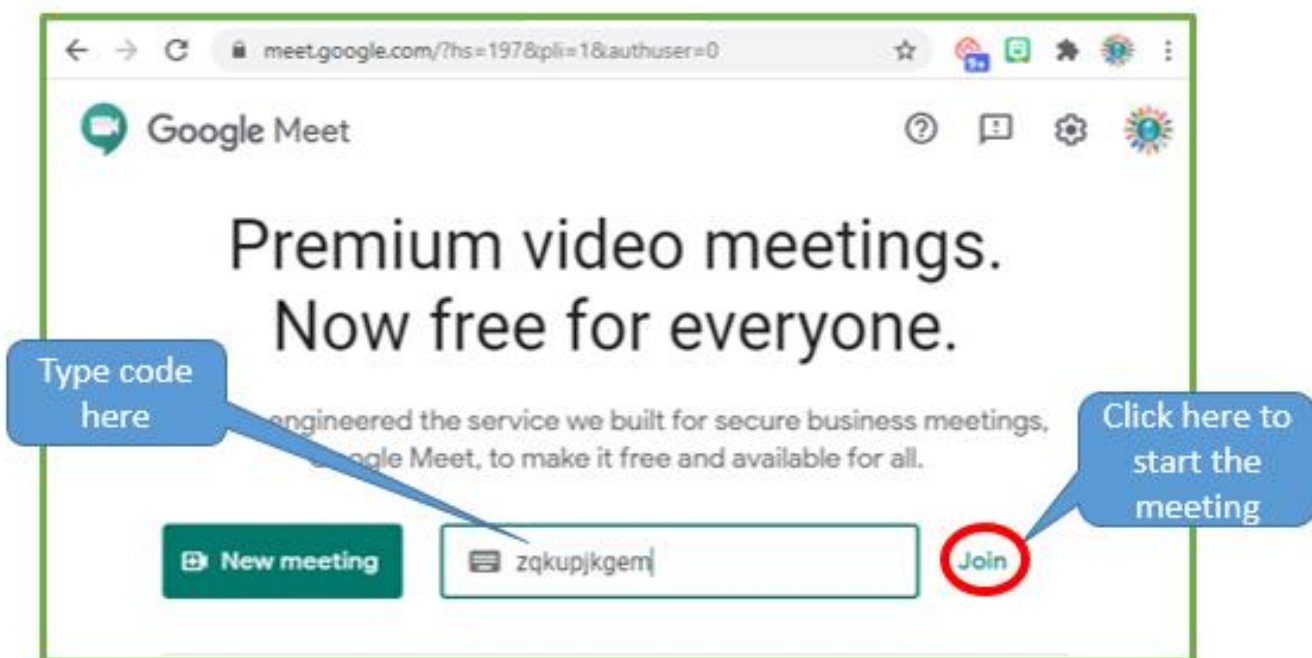

It is on the top left of the screen.

Then click on Google Meet.

3. Type in the code without dashes (-). Then Click "Join"

4. You will see a screen like the one below. You can mute your microphone and turn off your video before you join the meeting. Click “Join now” when you are ready to join.
